Mosaic Jar Lantern

👧 Age 4+ | ⏱ 30 min | Level: Easy ●○○

What you need

- [ ] An empty, clean glass jar
- [ ] Blue and white tissue paper squares
- [ ] White glue thinned with a little water
- [ ] A paintbrush
- [ ] An LED tealight

How to make it

1. Cut or tear small squares of tissue paper.
2. Brush glue on a small part of the jar.
3. Press tissue squares onto it and brush another layer of glue on top.
4. Keep going until the whole jar is covered, and let it dry.
5. Put in an LED tealight and turn off the lights.

💡 **Tip:** The glue looks white when wet, but turns completely clear once it dries.
